

Anticimex Smart Eye Mini

Smart Eye Mini is a small sensor, that detects rodent movement. Due to its size and design it has many applications from narrow drop ceilings to confined spaces or in combination with bait boxes.

The product has multiple functions. One as a monitoring device which detects rodent activity and the ambient temperature, and one as a range extender. It is ideal for server rooms, cable runs, electrical cabinets, ceiling, voids or food and sensitive equipment stores or other areas that are only inspected with difficulty or infrequently. As a range extender, it ensures the signal between other Smart Connect Mini devices.

Smart Eye Mini needs no preparation before deployment: The battery, with up to 5 years lifetime, is pre-mounted inside, and the product is sealed shut making it both water- and dustproof.

Anticimex Smart

Anticimex Smart is an intelligent system that keeps an eye on things you do not want to see. By constantly monitoring and instantly reacting, it prevents costly infestations in an environmentally friendly way. Add the services traditionally provided by us, and you will get a solution that gives you the best of two worlds – automation and expertise.

Smart Eye Mini

Controls	Wireless control with: 868-868,6 MHz (EU) 868-868,6 MHz (UK) 917-926 MHz (US) 917-926 MHz (AUS, NZ) 921 MHz and/or 922MHz (SG) 921 MHz and/or 922MHz (MY) 921 MHz (CO) 924 MHz (KH)
Installation	Can be placed both outside and inside buildings, as a monitoring device, for example, along the buildings, warehouses, attics, under shelves or on shelves, in cable trays, cabinets and kitchens.
