

Anticimex Smart Sense Mini

Smart Sense Mini is a sensor that detect insect activity and traps the insects on a glue board. It is for indoor use and can be placed in many different locations depending on whether it is intended for moth or cockroaches.

For cockroach-monitoring, Smart Sense Mini can be placed in various locations where cockroaches usually frequent: Industry kitchens near refrigerators, stoves or inside cabinets etc.

Smart Sense Mini can be wall-mounted for moth-control, where glue boards can be used in combination with pheromone.

Besides detecting insect activity, Smart Sense Mini acts as a range extender for other products in the Smart Connect Mini series.

Smart Sense Mini has an external power supply which is required to operate the product. The battery inside which ensures connectivity lasts up to 5 years.
